

Comptroller of the Currency, Treasury

§ 160.43

(iii) At the termination of a financing lease, either by expiration or default, property acquired must be liquidated or released on a net basis as soon as practicable. Any property held in anticipation of re-leasing must be reevaluated and recorded at the lower of fair market value or book value.

(d) *General leasing.* Pursuant to section 5(c)(2)(C) of the HOLA, a Federal savings association may invest in tangible personal property, including vehicles, manufactured homes, machinery, equipment, or furniture, for the purpose of leasing that property. In contrast to financing leases, lease investments made under this authority need not be the functional equivalent of loans.

(e) *Leasing salvage powers.* If, in good faith, a Federal savings association believes that there has been an unanticipated change in conditions that threatens its financial position by significantly increasing its exposure to loss, it may:

(1) As the owner and lessor, take reasonable and appropriate action to salvage or protect the value of the property or its interest arising under the lease;

(2) As the assignee of a lessor's interest in a lease, become the owner and lessor of the leased property pursuant to its contractual right, or take any reasonable and appropriate action to salvage or protect the value of the property or its interest arising under the lease; or

(3) Include any provisions in a lease, or make any additional agreements, to protect its financial position or investment in the circumstances set forth in paragraphs (e)(1) and (e)(2) of this section.

(3) Include any provisions in a lease, or make any additional agreements, to protect its financial position or investment in the circumstances set forth in paragraphs (e)(1) and (e)(2) of this section.

§ 160.42 State and local government obligations.

(a) Pursuant to HOLA section 5(c)(1)(H), a Federal savings association may invest in obligations issued by any state, territory, possession, or political subdivision thereof ("governmental entity"), subject to appropriate underwriting and the following conditions:

	Aggregate limitation	Per-issuer limitation
(1) General obligations	None	None.
(2) Other obligations of a governmental entity (e.g., revenue bonds) if the issuer has an adequate capacity to meet financial commitments under the security for the projected life of the asset or exposure. An issuer has an adequate capacity to meet financial commitments if the risk of default by the obligor is low and the full and timely repayment of principal and interest is expected.	None	10% of the institution's total capital.
(3) Obligations of a governmental entity that do not qualify under any other paragraph but are approved by the OCC.	As approved by the OCC	10% of the institution's total capital.

(b) *What is a political subdivision?* *Political subdivision* means a county, city, town, or other municipal corporation, a public authority, or a publicly-owned entity that is an instrumentality of a state or a municipal corporation.

(c) *What is a general obligation of a state or political subdivision?* A *general obligation* is an obligation that is guaranteed by the full faith and credit of a state or political subdivision that has the power to tax. Indirect payments, such as through a special fund, may qualify as general obligations if a state or political subdivision with taxing authority has unconditionally agreed to provide funds to cover payments.

(d) For all securities, the institution must consider, as appropriate, the interest rate, credit, liquidity, price, transaction, and other risks associated with the investment activity and determine that such investment is appropriate for the institution. The institution must also determine that the obligor has adequate resources and willingness to provide for all required payments on its obligations in a timely manner.

interest rate, credit, liquidity, price, transaction, and other risks associated with the investment activity and determine that such investment is appropriate for the institution. The institution must also determine that the obligor has adequate resources and willingness to provide for all required payments on its obligations in a timely manner.
